DUAL CONTROL

GVM: 12,000 - 24,000kg
GCM: 20,000 - 36,000kg
We purpose build our Dual Control trucks to Isuzu Australia specifications. No retro-fitting. So what you get is a factory-backed cab-chassis from Australia’s no.1 truck company. A package you simply can’t get anywhere else. So when it comes to choosing your Dual Control truck, there isn’t much to think twice about.

Be seated close to the action.
Garbage guts.

Commanding Performance.

Isuzu’s reliability is legendary. And while long-term durability is one thing, you also need to know you’ve got the gear in order to make your job easier. Now, With peak power reaching 221kW (300PS), the Isuzu 6HK1, ten-cylinder diesel, will share your load with ease. And when partnered with an Allison automatic transmission, it delivers a performance unrivalled in its class.

All Things Being Equal.

Performance and reliability aren’t the only benefits of Isuzu’s purpose-built dual-control trucks. There’s also the cab. Finally, you get the supremely comfortable ISRI 6860 suspension, so you’ll never be far from the action. The centre seat has been removed, allowing for a purpose designed central control unit featuring dual instrument clusters.

A Grandstand View.

Isuzu’s Dual Control Trucks provide the ultimate experience with all the safety you’d require. So whether you’re sweeping streets or heading back to base, you’ll always be in the box seat with Isuzu Dual Control.

Built with Purpose.

No matter what way you spin it, retro-fitting a standard truck with dual-control is asking it to do something it was never designed to do. Anyhow, right when offering you warranty in the process. Isuzu Dual Control Trucks are purpose built to Isuzu Australia specs. For property reliability, that Isuzu is famous for, as well as the support of Isuzu warranty. And that’s something that you can’t simply sweep aside. Isuzu’s Dual Control range is no different. For starters, our cabs feature a dual instrument clusters.

Safety in Numbers.

Safety has always been a key component of any Isuzu Truck, and our Dual Controls are no different. For starters, our cabs feature a six-speed automatic and splined pan transaxle, anti-lock braking, a Front Underrun Protection Device (FUPD), reversing camera, blind spot monitoring, double-side intrusion bars, and heavy duty non-slip entry steps.

Identical Twin Steering.

There’s a lot that goes on behind a steering wheel, and Isuzu have spent decades refining the way our trucks handle. This is a purpose built truck. There are no modifications made to the steering system under the cab. Left-hand side steering input is transferred through a gear driven cross shaft mounted inside of the cab. The steering columns also adjust in unison (rake angle only), so you can always steer from the optimum position whether you’re manning the left or right wheel.

Specifications

**Note:** The above sheet is a brief representation of the chassis specifications within the Isuzu dual control models range. For a detailed understanding of the model and specification variants, please refer to the Care Brochure.

**SAFETY IN NUMBERS.** Safety has always been a key component of any Isuzu Truck, and our Dual Controls are no different. For starters, our cabs feature a six-speed automatic and splined pan transaxle, anti-lock braking, a Front Underrun Protection Device (FUPD), reversing camera, blind spot monitoring, double-side intrusion bars, and heavy duty non-slip entry steps.

**COMMANDING PERFORMANCE.** Isuzu’s reliability is legendary. And while long-term durability is one thing, you also need to know you’ve got the gear in order to make your job easier. Now, With peak power reaching 221kW (300PS), the Isuzu 6HK1, ten-cylinder diesel, will share your load with ease. And when partnered with an Allison automatic transmission, it delivers a performance unrivalled in its class.

**BUILT WITH PURPOSE.** No matter what way you spin it, retro-fitting a standard truck with dual-control is asking it to do something it was never designed to do. Anyhow, right when offering you warranty in the process. Isuzu Dual Control Trucks are purpose built to Isuzu Australia specs. For property reliability, that Isuzu is famous for, as well as the support of Isuzu warranty. And that’s something that you can’t simply sweep aside. Isuzu’s Dual Control range is no different. **IDENTICAL TWIN STEERING.** There’s a lot that goes on behind a steering wheel, and Isuzu have spent decades refining the way our trucks handle. This is a purpose built truck. There are no modifications made to the steering system under the cab. Left-hand side steering input is transferred through a gear driven cross shaft mounted inside of the cab. The steering columns also adjust in unison (rake angle only), so you can always steer from the optimum position whether you’re manning the left or right wheel.
Isuzu Assist is a 3-year, 24-hour roadside assistance program that comes at no extra cost with all new Isuzu trucks. And while our trucks are renowned for their reliability, even if you run out of fuel, lose your keys, get a flat tyre (or battery), Isuzu Assist will be there to sort it out. Just freecall 1800 947 898.

Isuzu Care is the most comprehensive customer care programme ever seen in Australia, offering a suite of innovative support services and a level of customer care that’s setting new industry standards. Wherever you are, Care’s as close as a freecall to 1800 035 640.

Isuzu Extended Care provides a two-year extension to Isuzu’s three-year factory warranty. As well as the five-year factory warranty, ISUZU Extended Care includes five years of Isuzu’s customer care programme, Isuzu Assist. Available when you buy your truck, it’s the ultimate peace-of-mind.

Isuzu Sales Information System (ISIS for short) is a software program the dealer will use to help you select the right truck and body for your application. Once it’s been programmed with your requirements, ISIS simulates how the truck will perform in terms of its weight distribution, available power and other performance characteristics. So with ISIS, you’re sure to find your most suitable match.
