ISUZU’S NEW F SERIES.
THE PERFECT MIX OF BRAINS AND BRAWN.

When you’re choosing a new truck, you need to know that it’s got the grunt to get the job done. And like all Isuzus, our new F Series has that in spades. But where the range really shines is in the brains department. From electronics to mechanical smarts, along with some creature comforts too, you won’t find a more sophisticated mix. And that makes choosing an Isuzu a very clever call.

*Sat-Nav is optional on 4x4 models
Our 4HK1 four-cylinder diesel is just one of the clever options available in the F Series, at power ratings of either 210PS or 240PS. Both are super efficient, but their high torque two stage turbo chargers also mean they put out an impressive 726Nm and 765Nm of torque respectively.

The 4HK1 is also the cleanest Japanese medium duty diesel engine available in Australia. How clean? Well, it would take more than 100 new F Series to produce the Particulate Matter (PM) emissions of just one pre-1996 truck!

Another feature is our Idle-Stop System (ISS). By cutting the engine when you come to a halt, at traffic lights for example, ISS can save you up to 10% on fuel in heavy traffic situations. For applications where you can't have the engine switch off, you can choose not to use ISS. Combined with our Torque Convertor Automated Manual Transmission (TC-AMT), ISS helps these engines deliver class-leading fuel economy.

Our 6HK1 six-cylinder diesel is just one of the clever options available in the F Series, at power ratings of 191kW. With six cylinders and an intercooled turbocharger, it delivers 191kW and offers a choice of manual or Allison auto transmissions to suit different applications.

The 6HK1 is also equipped with Diesel Oxidation Catalyst (DOC). Unlike some emission management systems, DOC is ultra-reliable and requires no maintenance. And because there's no selective catalytic reduction (SCR) or DPD, there's no need for Ad Blue or regeneration requirements. This makes the 6HK1 a great choice for applications with high idle times, high PTO use, and frequent stops and starts, like council service and waste trucks.

</table>

Sometimes you need serious power and that's where our 6HK1 engine comes in. With six cylinders and an intercooled turbocharger, it delivers 191kW and offers a choice of manual or Allison auto transmissions to suit different applications.

The 6HK1 is also equipped with Diesel Oxidation Catalyst (DOC). Unlike some emission management systems, DOC is ultra-reliable and requires no maintenance. And because there's no selective catalytic reduction (SCR) or DPD, there's no need for Ad Blue or regeneration requirements. This makes the 6HK1 a great choice for applications with high idle times, high PTO use, and frequent stops and starts, like council service and waste trucks.
300PS HIGH POWER
4X2 6X2 AND 6X4 RANGE

F series ‘maximum capacity’ range including standard 4x2, 6x2 lazy axle and 6x6 loaders axle configurations. All powered by the highly-regarded 6HK1-TCi (221kW / 300PS) turbo, intercooled diesel engine that delivers 881Nm of torque. Available (dependent on model) with Meritor drive axle and brake assembly, with closed spring or Hendrickson airbag suspension and 2F 5-speed manual or Allison 3000 or 3500 series 6-speed automatic transmissions.

4x2 FVRs available with Meritor drive axle and brake assembly with spring or Hendrickson airbag suspension and 6-speed manual or 8-speed auto transmissions. Both 4x2 wheelbases to suit a range of applications. 6x2 is available with buzz spring and closed springs, or with leaf coils and brake assembly with airbag suspension. 6x4 is available with Meritor axle and brake assembly with closed springs or Hendrickson airbag suspension. Three 6x4 wheelbases are available to suit a range of applications.

A WIDE SELECTION OF SMARTS.

Your new F Series is brimming with brains. For starters, there’s DAVE, our Digital Audio Visual Equipment which includes AM, FM and digital (DAB+) radio, CD/DVD, MP3, and Bluetooth music streaming. DAVE also comes with Sat-Nav as standard* (including free quarterly map updates for three years).

All F Series trucks are telematics-ready too. Isuzu ‘Connect Plus’ telematics interconnects both truck and driver with your full support team, from the dispatcher to the service manager. To electronically, automatically and continuously stream countless data, in real time, on virtually everything the truck and the driver do. From how long it spent idling to where it spent the night. And in the process, makes all of you even better ‘drivers’, including the driver himself.

There are also some seriously clever mechanical options, like our economical yet powerful new 4HK1 four-cylinder diesel engine which is available with our Idle-Stop System (ISS), that cuts the engine when you come to a halt, and a smooth, responsive Automated Manual Transmission with Torque Convertor (TC-AMT).

*Sat-Nav is optional on 4x4 models.
FIND THE RIGHT
F SERIES FOR YOU.

The F Series includes over 85 different models, including the
most two-pedal choices we’ve ever offered, so you’re sure to
find the perfect match for your application. Below, you’ll find
all the basic specifications. If you need more help, your Isuzu
Dealer can use the Isuzu Electronic Information System to
pick the right configuration for your specific application.
THE BEST SEAT IN THE BUSINESS.

All F Series cabs are built to the internationally-recognised ECE-R29 cab strength safety standard, so they’re world-class. Double side-intrusion bars, seatbelt pre-tensioners and load-limiters, and driver and passenger airbags are all standard too. Along with traction control and a whole host of other safety features. So in an Isuzu, you’ll always work safe.

SAFER STARTS MADE SIMPLE.

All 4HK1 models with manual transmissions now come equipped with Start Assist. This raises the engine speed to 850RPM and makes engaging the clutch quicker and easier. Used for first-gear take-offs when you’re on a slope or carrying a heavy load, it means you won’t experience any unexpected slips.

DON’T MISS A THING.

This F Series option gives you near 360˚ views in those pesky blind spots. Operating through a clever digital lattice system, this camera system puts you in the driver’s seat, and even with audio on one of them, it’s the smart way get yourself into (and out of) tight spots. Available at additional cost.

MAKE STRESS FREE SERVICING A PRIORITY.

This is Isuzu’s priority - to make sure all your trucks are in good shape. And that’s why our Service team are trained experts who can help you select the right truck maintenance plan to suit your needs. Whether you’re just looking for a quick check-up or you need advice on how to keep your truck in top condition, our team is here to help.

CONTROL YOUR SPEED, AND YOUR CLIMATE.

Pick a speed, pick a temperature, then sit back and relax because advanced electronic cruise-control and fully integrated air-conditioning are both standard in all models. Many models also come with automatic climate control as standard. And that’s a breath of fresh air.

ISUZU CARE.

Reliability means a lot more than just a mechanically reliable truck. Isuzu Care is Australia’s most comprehensive customer care truck program and it offers you support and a level of customer care that’s second to none. Whether you’re on the road or in your workshop, you can rely on Isuzu Care to help you keep your trucks in tip-top condition. And with 99% of all Isuzu dealerships having a direct phone line to the factory, you can be sure you’re getting the best care.

ISUZU EXTENDED CARE.

Isuzu extended care is the perfect way to take care of your truck. It gives you peace of mind that your truck is protected against unexpected breakdowns and repairs. And with the peace of mind that comes with Isuzu’s reputation for reliability, you can focus on what really matters: running your business.

ISUZU ROADSIDE ASSIST.

Isuzu roadside assist is there when you need it most. So whether you’re on the road and broken down, or stuck in traffic, Isuzu roadside assistance is there to help. And if your Isuzu is ever a cause for concern, our customer care team is just a phone call away.
